

## MCTS

### Certificering/opleiding MCTS

**Certificering in de Microsoft Certified Technology Specialist (MCTS) betekent dat de desbetreffende Technology Specialist in staat is om succesvol te implementeren, bouwen, troubleshooten en debuggen van specifieke Microsoft technologie.**

Een Microsoft Certified Technology Specialist (MCTS) heeft een bewezen basiskennis van de betreffende Microsoft Technologieën

Certificering voor de Microsoft Certified Technology Specialist omvat tussen de een en drie examens en is gefocussed op een specifiek Microsoft product of technologie. In onderstaand overzicht staan alle beschikbare MCTS certificeringen. Per product of technologie staan de verplichte examen(s) en te volgen cursus(en) benoemd. De MCTS certificering gaat niet in op specifieke functieprofielen en vaardigheden.
