

Windows Server 2008

Cursus/opleiding/training Windows Server 2008

Windows Server 2008, de opvolger van Windows Server 2003 biedt vele verbeteringen op het gebied van o.a. beheer en flexibiliteit. Met deze introductie zijn ook de nieuwe certificeringstrajecten gepresenteerd. Belangrijk detail hierbij is dat de huidige MCSA en MCSE certificeringen voor Windows Server 2003 worden vervangen door de meer gespecialiseerde MCITP certificeringen. Er volgen dus geen nieuwe MCSA 2008 of MCSE 2008 trajecten. MCTS en MCITP zijn twee van de nieuwe Microsoft certificeringen.

Certificeringen

• MCITP: Microsoft Certified IT Professional

Met de nieuwe Microsoft certificering voor IT professionals (MCITP) kunt u uw specifieke kennis en expertise op een hoger niveau brengen. Nu kunt u uzelf specialiseren als expert in database administration, database development of business intelligence.

• MCTS: Microsoft Certified Technology Specialist

Deze certificering richt zich op vaardigheden op het gebied van specifieke Microsoft technologieën. De Microsoft Certified Technology Specialist (MCTS) is consequent bekwaam in het uitvoeren, bouwen, troubleshooten en debuggen van een specifieke Microsoft Technologie.

Upgrade van MCSE/MCSA naar Windows Server 2008?

Ben u MCSA of MCSE 2003 gecertificeerd en wilt u upgraden naar de beschikbare Server 2008 certificeringen? U kunt door 1 examen af te leggen, respectievelijk 3 of 2 MCTS-statussen behalen. Ook is het mogelijk om naar MCITP te upgraden.
